Locale resolution at a scale

- ▶ The concept
- ▶ Building blocks
- ▶ Sample locale resolution logic

Concept

- How do I get a locale?

- Where to find it?

- What if my app does not support the locale I find?

Building blocks

- Browser settings
- Cookie
- Session cookie
- IP address/Geo location
- URL parameters
  - www.welcometomypage.com/fr
  - www.welcometomypage.com/?locale=fr-FR
  - www.welcometomypage.com/?country=CA&language=fr
- URL domain
  - www.welcometomypage.fr
- User profile
- Configured default locale

A sample locale resolution logic
